

Leksell Gamma Knife® Icon™ - Elekta Care Gold

Article No : SN-ICON-Y

Elekta's Gold Service & Support for Leksell Gamma Knife® Icon™ combines a maintenance program with customer support to minimize costs while ensuring a high level of availability and safety for your device.

As an imperative quality assurance measure, the Gold Service & Support Program provides comprehensive planned support and maintenance in accordance with Elekta recommendations. The planned maintenance includes scheduled on-site inspections performed by trained and certified Elekta engineers. The technical support and application support teams are available on a daily basis to answer any questions and respond to any support needs.

Elekta's GoldService & Support program helps to maintain the precision and reliability of the Leksell Gamma Knife® Icon™.

In addition to the above, it also offers:

- Planned maintenance of Leksell® Coordinate Frame
- Software maintenance and service-pack releases of licensed software
- Coverage service for selected spare parts and convenient site kits of wear and tear parts

For comprehensive preventive maintenance and support—choose the Gold Service & Support Program
